Hiring Manager

WeScript for Digital Services and Solutions

Ramallah - Palestine

Dear Hiring Manager,

I'm applying for the **Junior Software Developer** position at WeScript. I'm a Computer Engineering student, and I've been building my skills in **software development** through hands-on experience in **web development** and **backend systems**.

In my projects, I worked with **JavaScript**, **Python**, and **MySQL**, and I developed a backend healthcare system using Node.js and Express.js where I built **RESTful APIs** and worked with real data. This experience helped me better understand **software coding and design**, especially when working with **databases** and **solving real problems**.

I enjoy working in a **team environment**, and I'm always trying to **learn new technologies** and improve my skills step by step. I can adapt to a **fast-paced work environment**, I'm **detail-oriented**, and I'm **fluent in English and Arabic**. I'd really appreciate the opportunity to join your team and grow while contributing.

Sincerely,

Alaa Dere
